

## **BACKGROUND**

Travelling is not everyone's sport, but many do love travelling. People travel for diverse reasons - some for work, some to spend their vacations, and some to see new places and take back with them the best experiences, to another couple it could be a honeymoon, and yet to others it could be business. While to other few it could be an escapade. What an amazing reason to travel! Our intention to make all travels to Bhutan one of the best experiences evolved when our eldest brother David worked in Uma Resort in Paro for eleven long years. It was a dream long loved – but seemed unreachable – yet we had to fulfil it. Then we all put the dreams together and promised that we shall work on it, no matter what it takes or how long it takes. The eldest started his free-lance driving and guiding; collecting rich values and lessons from various pockets of the country. His bank of wisdom on cultural richness of the country and ability to add magic to a simple fact through his captivating expression made our dream too loved to realize it soon. Our closest family members believed we would do well. The biggest dream however, was our mom's. We needed to realize it! A very close friend of ours, Holmes, Karz, Karma call him with any name – gave us this name; Bhutan Dreamz! It made all the more meaning and reason to take the initial strides. The title spoke about every minute detail that a tour company needed. Hence the spark perhaps was big enough – that the fire has only gotten bigger and must get bigger. Bhutan Dreamz – is also for all our valued guests who wish to travel to Bhutan – to make your trip the best Dream come true! So, dream on, dear people... Bhutan Dreamz is here to make it come true.
